To whom it may concern,

I am writing this letter to recommend the Services and Product of Mersinco Enterprises Inc. We have been buying the Carefree tire WA-10-4375J-AS34 410/350 x 4 assembly from them since 2012. Mark and Dave have been absolutely wonderful to work with.

One of our biggest warranty items we had in the past were the four small tires on our low profile hopper. We used cheaper Chinese (air filled tires) which was terrible. Then we tried a few different North American Suppliers with results that were not much better. After all the trouble we had we finally switched to the Carefree tire and all our warranty problems are gone and our customers are much happier.

Sincerely,
Rob Ginter
