Reference: ReSeal Product

Mr Jenkins, I am writing to you today to advise you of our pleasure using the Mersinco ReSeal product. We have been using this product for over 10 years at Tirecraft and have had many great comments from our customers. The most beneficial application for us has been on garbage hauler trucks that experience rough terrain and nails. The ReSeal product allows these units to run longer between flat repairs as many punctures reseal themselves without issue.

We also use the ReSeal product on one of our displays at farm shows. Potential customers are amazed at the ability of a fully aired tire to be punctured with a screw driver many times over and still hold full air pressure.

Thank you for your support of our business. We will continue to happily advise our customers of the benefits of the Mersinco ReSeal product.

Regards
