

Application: Caterpillar 793F Haul Truck - 250 Ton
Tire: Bridgestone 40.00 R57
Product :TLC Extreme Tire and Rim Protection Product

“I have used Arnco Pathway products for over 30 years in my tire career with nothing but excellent results, TLC is another example of a great Arnco Pathway product” Jeff Wilson – KINROSS Fort Knox Tire Program Supervisor

Application: Construction and Mining OTR

Tire: 16" – 63" OTR Tire

Product :TLC and TLC Extreme

“One of the advantages I really like about TLC is the coating. It allows me to use it as a lube on the beads and O-Rings. Eliminating other products that will rust the O-Ring grove.” Brian Santistevan – Lead Tire Tech Bridgestone Mining Elko NV

Application: Construction and OTR

Tire: 20" – 57"

Product :TLC and ReSeal Products

"In my opinion, TLC has the advantage over all other tire conditioners because it is a gel with better coating and adhesion qualities."

"We have used just about every brand of tire conditioner out there. They are all the same water based solution, and all cost about the same with similar results. TLC has out preformed them, more bang for the buck. "Kyle Potter - Ragan Tire
