

prolong
TIRE CONDITIONER

EXCEPTIONAL PERFORMANCE FROM THE INSIDE OUT

WHAT IT IS

ProLong is the tire conditioner of choice for vehicles large and small. Non-flammable and water-soluble, it coats the interior cavity of your tire and wheel and disperses evenly throughout the space as the wheel rotates. ProLong is also chemically neutral (non-hazardous), environmentally safe, and easy to install.

WHAT IT DOES

ProLong substantially improves tire and rim life by inhibiting rust and aluminum oxidation on your wheels, sealing minor porosity in rim interiors, acting as a thermal coolant to reduce friction heat, and maintaining optimal pliability of the tire's casing and inner liner. In addition, the solution lubricates the tires and wheels, making the mounting and dismounting process faster and safer for multi-piece wheels.

AVERAGE TIRE COST

Our tire conditioners can extend the life of your tires by 25% to 35%. With tires sets ranging from a few hundred to thousands of dollars per set, this means big savings in the long-term:

Tire Size	Tire Cost	25% Extended Life Savings
27.00R49	\$16,800	\$4,200 per tire
40.5/75R39	\$18,400	\$4,600 per tire
35/65R33	\$14,300	\$3,575 per tire
Semi-trailer tire, 11R22.5	\$295	\$73.75 per tire

DESIGNED TO BE DIFFERENT

Formulated to withstand extreme weather – stays fluid to -50°C

Acts as a thermal coolant, boosting performance and tire life

Extends casing life by reducing rust, restricting air loss, and preserving retreadability

Details

Used to protect casings and rims; not a sealant. Will not corrode steel, magnesium, or aluminum wheels. Available in 1,040L totes. Most effective on tubeless tires. Do not mix with calcium or tire sealants.

ProLong has a comprehensive line of formulas for every climate from +10 degrees to -50 degrees.
